(ii) District Board, Bellary,

CR 295/31

Sir,

Grant for a drinking water well, Kamalapuram Union, Bellary District- requested.

Forwarded through President Taluk Board Bellary.
P.No 1776
President Taluk Board Hospet.
10.3.31

This (Kamalapuram) Union is a Town with a population of 5,369 situated adjacent to an irrigation major tank with an extensive wet cultivation. It has a perennial supply having been fed by two irrigation river fed channels. The village is noted for Malaria. In rainy seasons when the tank is full, the water gets into a portion of the village chavadikeri and enters into dwelling houses. There are no drinking water draw wells at all in this Union. The tank water alone is being used for all purposes. This Malaria has been acute in this place and the mortality from Malaria has consequently been great. To avert this, this Union Board started the construction of a well in an approved site on an estimate of Rs.670/- within the means of this Board. But to the great surprise and utter disappointment a rock was met with and after its cutting by dynamite, there was copious supply and several springs during excavation. The baling out of water by coolies was an utter impossibility. Therefore it had to be baled out with the aid of an engine and pump rented out by the Industrial Department. The total cost

cost of the work has now come to Rs.2,860/- as per revised estimate, which has been ~~sent up for the~~ sanctioned as per ~~of the Taluk~~ and District Boards, resolution no 18 C dated 22.1.31.

2. The normal receipts of this Union amount to Rs. 2,300/- while the normal expenditure on services and maintenance of roads &c, comes to Rs. 2,100/-. Thus nothing is left out for public improvements. There is much to be done in this Union by way of opening up of congestion, dismantling of ruined and unclaimed houses, laying out roads and providing a few more drinking water wells on the other sides of the Union.

3. I would earnestly request you to be so good as to move the Government for a kind grant at least equal to one half of the estimated amount by treating this application as a special one departing from all the rules and orders on the subject of submitting applications for grants in the exceptional circumstances stated in paras 1 & 2 supra. This Union Board will however meet the other half from the poor balance of Rs.3,700/- accumulated for some years past. I fully trust this will not be a cry in the wilderness but that the Government will view this case sympathetically and find its way to give half the grant of the well work at least from the expected unspent balances of the grants given to the Taluk and District Boards already.

A copy of the Resolution No.8 dated 24-2-1931 of the Union Board is enclosed for favour of perusal and orders.

I have the honour to be,

Sir,

Your most obedient Servant.
